Guadalupe Island, Mexico

### Nautilus Explorer - Diving with Great White Sharks off Guadalupe Island

[Nautilus Explorer](#), a diving adventure company, offers [Diving with Great White Sharks](#) off Guadalupe Island, Mexico. The trips offer a rich and natural experience of shark encounters by descending down to 30 feet where great white sharks naturally spend their time (with 125 - 150 foot visibility). They don't need to use chum at depth; the sharks are already there. Without chum these great whites are more relaxed,

exhibit much more curiosity, and come in much closer to the cages. Guadalupe Island (Mexico) is the top destination for great white shark encounters. This small volcanic island, off the west coast of Mexico's Baja California peninsula, offers shark-seeing consistency and watching conditions. All Guadalupe adventures are available on the Nautilus Explorer or Nautilus Belle Amie. Both ships are custom built, stabilized, beautiful white boats built to SOLAS standards. Each have accommodations that suite all preferences ranging from a luxurious premium suites with their own entry to the deck to triple and quad occupancy staterooms.
